

## Site Engineer (Civil)

Job Location: Co Antrim

Salary: Negotiable

Due to the award of exciting new contracts, Gibson (Banbridge) Ltd require an enthusiastic Site Engineer to join their Civil Engineering department. The role will consist of immediate involvement within a live scheme from their portfolio of live contracts across Ireland. The role will commence on a new civils project in Co Antrim. Training and initial duties will include setting-out (using the latest GPS and machine-controlled technology), interpretation of drawings and specifications, involvement in management of Health and Safety, site record keeping, ordering and management of site materials, assisting the commercial team with contract administration, among other duties. The applicant needs to demonstrate an interest in the construction industry and be able to work as part of a team. This is an exciting opportunity for the selected candidate as Gibson (Banbridge) Ltd offer a broad range of Civil Engineering services.

The following reflect the main tasks associated with the role and are not intended to be exclusive or exhaustive;

- Work with and report directly to the Contracts Manager
- Work with site teams, clients, supplier and subcontractors to achieve the required project outcomes.
- Manage design processes and ensure implementation on site.
- Monitor project progress including the analysis of resource levels
- Manage project from initial design development stages through to project completion and handover, with specific responsibility for programme, cost, quality, the environment and health & safety.
- Work closely with the Company Management team
- Attend and contribute to internal meetings, working with colleagues to update on progress/projections etc

Key requirements;

- Highly motivated individual capable of working individually and in close collaboration with others as appropriate
- A minimum of 2 years relevant experience in civil engineering or construction (previous work experience and placements will be considered)
- Will have contracts experience particularly with the full suite of NEC contracts (will be reviewed at interview stage)
- Relevant, demonstrable Project and Programme experience
- Degree educated or suitable experience (will be reviewed at interview stage)
- Strong numerical skills
- Excellent communication skills, both written and verbal
- The ability to communicate effectively at a senior level both internally and with clients
- Highly IT literate

Desirable;

- CSR/CSCS Qualification or equivalent
- Setting out experience (with Trimble GPS system)
- Microsoft Project experience
- Experience of using AutoCAD
- Full valid driving licence

In return, we offer a competitive salary plus we'll provide development and learning opportunities, services and support designed to help you manage and balance your work/life priorities. Gibson (Banbridge) Ltd encourage continuing professional development of their staff
